

BRAVEHEART OF STERN

NHF AMF

Born 29 Aug 2007

Is it time to use a bull that looks like a bull, has the performance and is backed by solid bloodlines? Braveheart blends two great Stern bloodlines. Sired by Highlander of Stern, the most successful sire in New Zealand 2009 (selling 24 sons at Stern for an average of \$8000), and with his dam twice tracing back to 10 year old Stern Fitzpatrick, Braveheart has a proud heritage indeed.

He has a true quality Angus head, good reign and clean shoulder. He's deep chested and voluminous with a strong wide back, deep flank and tremendous hind quarter. Look also to his tight sheath, large testicles, no white, strong hocks and good feet. It's a rare package of practical cattlemen's type, style and performance.

Braveheart's semen sales have reached \$40,000 making him the most popular bull in New Zealand this year.

Highlander of Stern

Stern Fitzpatrick
