

HIGHLANDER OF STERN

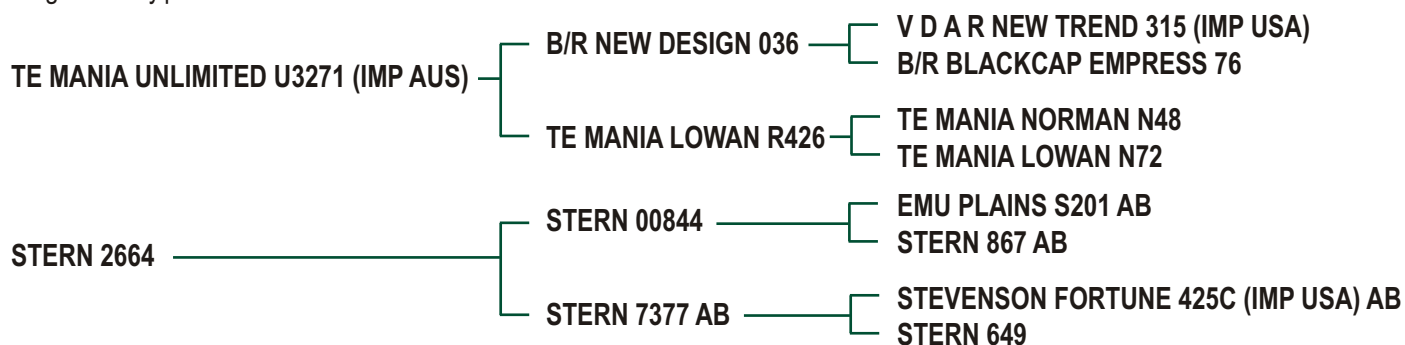

FRAME 6.7 NHF AMF

Born 18 July 2004

Highlander was arguably the most successful New Zealand sire in 2009 (selling 25 sons at Stern for an average of \$8000) plus two sons retained, one of which, Braveheart of Stern, realised \$32000 semen sales. They were sought after and dominated the Stern sale selling up to \$18000 and including 4 stud bulls. At Kaharau two Highlander sons were retained and further sons topped the Meadowslea sale.

Take a look at his strong hocks, bone and head together with his tight sheath and large testicles. Add his structural soundness, tremendous growth, lovely quiet temperament and carcass attributes. He's a reliable proven performance sire whose progeny are sought after by practical cattlemen.
